Bill Burrows
709 Division Street
Gloucester City, New Jersey

Mr. Burrows:

Thank you for listening. The station you listened to on 10/18/86 was WFUN. The information you recorded as hearing is correct.

Our frequency is 970 khz. We are a 5000 watt day, 1000 watt night station. We broadcast Monday thru Sunday, 5:30 am to midnight. Our news source is UPI. Our primary area of service is Northeastern Ohio. The furthest signal report we have received is Florida to the south and New Hampshire to the north. Our studios and transmitter are located in Ashtabula, Ohio. Our sister station, WREO-FM (97.1) is located on the same property. We have a directional signal, map enclosed. Our format is "HOT" AC with strong community orientation.

Thank you for your interest.

Sincerely,

Bud Bailey
